

Measure A Favorite Pants

Tips on measuring

- The garment is made of woven non-stretch fabric.
- Lay the garment down flat, smooth out any wrinkles so its front is the same size as the back.
- The measurements should be taken to the nearest half (0.5) centimeter or quarter (0.25) inch.
- Measure twice! If you don't get the same measurement both times, try again.

Measure a favorite pants <input type="checkbox"/> cm ; <input type="checkbox"/> inch	
1. Waist	Measure along the top waistband from left to right, multiply by 2.
2. Hips	Measure from one side to the other at the fullest part of the hip, multiply by 2.
3. Pants outseam	Measure straight down from the top waistband to the bottom of the pants.
4. Inseam	Measure from the crotch straight down to the end of the bottom.
5. Thigh	Measurement horizontally from left to right at the point 2.5cm (1 inch) below the crotch, multiply by 2.
